

Border Crisis Survey

September 29, 2021

Dear Friend,

The numbers don't lie, and they show border apprehensions remain at a 21-year high. More than 1,200,000 illegal immigrants have been apprehended at the border since February 1, 2021, according to Customs and Border Protection (CBP) data. Additionally, fentanyl seizures in 2021 have nearly doubled 2020 numbers, according to records released by CBP – and that is just what we know about.

I'm interested in your thoughts on the catastrophe at our southern border. Please take the survey below.
