

OUR REPUBLICAN COUNTY COMMISSIONER CANDIDATES

Bernard White Candidate District 2

Bernard White Candidate for District 2

W. Bernard White, Jr. is the Republican from Chadbourn running for Columbus County Commissioner (District 2). Mr. White's platform is more jobs. He wants more jobs, more industry & more opportunity for the people of Columbus County.

Currently the Technology Manager for Columbus County Sheriff's Office, and owner of small web development & music publishing business, White intends to use his digital marketing & tech experience to target businesses interested in expansion/relocation. He thinks this experience will help identify companies for further talk. It is his belief that

JOBS is the most important topic today.

Bernard White attended schools in Chadbourn, high school in Cerro Gordo, and colleges in Whiteville, Wilmington & Raleigh. His experience running a commercial IT business in North Whiteville (Advanced Computing, for over a decade) provided a diverse small business knowledge, and will prove valuable in future company negotiations. This experience working with area business owners & municipality (City of Whiteville) on a daily basis allowed White to see the processes & concerns of running a business and town in Columbus County. He understands how things work together.

Bernard White for Columbus County Commissioner District 2.
Vote for better tomorrows on March 3rd!

I promise I will listen to what you say and ask

Please call me or ask people that know me.

You might not like what I say but it will be the truth to the best of my knowledge.

Lavern (Vern) Coleman-Candidate for District 4 Commissioner.

Mack Ward candidate for District 2

Mack Ward Candidate for District 2

Candidate for County Commissioner District II – I am seeking the office of county commissioner to offer each and every citizen of Columbus County open and transparent county government. Perhaps I can facilitate some swamp draining along the way, which under the present conditions would be very beneficial. I steadfastly believe every citizen should know what their county government is doing. Many improvements in your county need to be made, economic development and jobs a top priority. One goal I will certainly strive for is to be able to communicate with any resident of our county when problems, questions or concerns arise. Seeking solutions and answers promptly. As a former law enforcement officer and retired North Carolina Magistrate I value the freedom we have to exercise our second amendment rights that are granted by the US Constitution. The simple fact of any elected or public

official attempting to compromise our second amendment rights will simply embolden criminals with the knowledge their victims are more vulnerable. If elected I work for you, some tidying up in county government will benefit everyone.

My Qualifications

- Former Law Enforcement Officer
- Retired NC Magistrate Judicial District 13A
- A firm believer in mine and your right to bear arms the 2nd Amendment
- I care about the county and it's people
- I'm familiar with how government works and knows where it needs to be fixed.

I will be a commissioner for the whole county.
